Dear Sir, Madam

I am writing to support the applications of the other residents in the change of Local Authorities and Boundary of our area. I have been deeply unhappy that my neighbours that I can see from my own home are under North Lanarkshire while we remain under Glasgow city council. We are paying higher council tax and receive only our refuse collections for the pleasure.

During the last 3 winters in my new home we have had to suffer un-gritted roads as well as un ploughed streets during snowfall. This has been a joke and has never been rectified regardless of the numerous complaints I have made to Glasgow City council.

When we purchased the home, we were assured that the boundry would change, as per the other developments in the a joining areas. This has not been the case. Persimmon homes successful argued the same points as our estate.

I believe that Glasgow City is happy to charge top level Council Tax, while offering very little in return, as well as preventing local children from attending local schools and costing double the amounts to send local children to schools further away from the estate while their close friends yards away go to a local school.

Finally I hope you take a realistic look at the boundary and the way it has been split. I look forward to hearing from you.

Regards

David and Kat
